RAHUA VOLUMINOUS HAIRSPRAY
USER'S GUIDE

OUR VOLUMINOUS HAIR SPRAY IS UNLIKE ANY OTHER HAIR-CARE PRODUCT ON THE MARKET IT:

- Builds hair volume over time through continuous use
- Is an amazing aroma-therapeutic, soft-hold hair spray
- And it's 100% natural and organic

HOW IT WORKS

The unique molecular structure of our formula is designed to create fibers — we call them "fuzzy-fibers." When used regularly, Rahua Voluminous Hair Spray creates these "fuzzy-fibers" on the outer layer of the hair, pushing neighboring hair strands apart, inflating the hair and creating volume. It provides a base for amazing looks without harmful chemicals.

HOW TO USE RAHUA VOLUMINOUS HAIR SPRAY

Salon use:

This soft hold spray is best when activated with hot tools and it can be used before styling. On dry or wet hair, spray all over as with any styling lotion and shape into style. When style is achieved spray all over again, wait 30 seconds. Enjoy the moment!

Home use:

On wet or dry hair, lean head forward so hair spills over forehead, spray generously, blast hair with blow dryer. Be sure to dry hair completely from roots to ends and shape ends to desired style. When style is achieved, spray again for final hold and wait 30 seconds. Enjoy the moment!

WHAT MAKES OUR SPRAY UNIQUE?

The longer you use Rahua Voluminous Hair Spray the fuller your hair becomes (thick hair takes about two weeks for the full effect). Once the desired fullness is achieved the effect will last for approximately six weeks (after use is discontinued). Shampooing with mild shampoo will not reduce the volume (Rahau Shampoo is recommended). If you discontinue use simply start reapplying Rahua Voluminous Hair Spray and the fuzzy-fibers immediately spring back to life.

There's no limit:

The the more you apply Rahua Voluminous Hairspray (over time) the fuller your hair gets. Period!
